Welcome to the largest collection of dowsers in North America (and maybe anywhere)! We are pleased and proud to have you here. Our staff, our convention committee and other volunteers have been working for months to make this the very best convention possible. The facilities are great and our speakers are second to none.

Please take time to visit with our many vendors and treat yourself in our Wellness Center. Also, make sure you take the time to see some of the things that Saratoga Springs area has to offer as well.

If you have any questions or issues, don’t hesitate to ask one of our volunteers or officers. We want you to get the very most out of your time here. As you look over the schedule, make a point of coming to our Members Meeting. We have many opportunities and need a lot of talented people to help get things done.

As I pass the gavel on to our new President, I am looking forward to working on some different projects this coming year. It has been a great year and we have accomplished so much. I can hardly wait to see what is coming next!

Welcome to the 57th Annual Convention of the American Society of Dowsers, and our second year at beautiful Skidmore College. The Board of Trustees, Staff – Lisa LaCoss and Jamie Sabuda, and the entire Convention Committee welcome you and look forward to helping you “Navigate Your Future with Dowsing.” We have strived to provide you with an interesting and varied array of workshops, speakers, vendors and wellness practitioners.

We would not have been able to put this convention together without the amazing teamwork of Sandi Isgro, Suzanne Schwartz, Queenie Puryear, Matt Minor, and Wendy Walther and Wendy LeBlanc from Skidmore College Staff. We are greatly indebted to our team for their skills, patience, time and positive energies throughout the months of planning.

Each year we have the interesting challenge of selecting the right workshops and speakers from those that have applied, for those that will be attending, and then it is up to you to be at the right place at the right time. We do read your evaluations each year to give us guidance for the next year, so you really do have a part in selecting what we offer at the following year’s convention. We thank you for doing your part to make each convention better than the previous one.

This year we are very fortunate to have Aaron and Sue Singleton honoring us by providing our opening ceremonies. White Eagle is traveling and sends his greetings to all. This year we have more rooms with vendors, on two floors, so you can get more exercise by walking the stairs, or appreciate the elevator! Also, don’t forget to stay hydrated. All the drinking fountains are equipped for re-filling your containers. The ASD Bookstore will offer more books this year, and will also offer book signing by some of our published authors. Be sure you get your signed copies.

The Wellness Center is back with the same and several new great offerings. It will be located above the Murray Aikins Dining Hall right next to the elevator. Treat yourself to better overall health and support your organization at the same time.

This year the Water for Humanity Fund, under the direction of Leroy Bull, will be holding a silent auction for a Vogel crystal that has been generously donated for WFHF projects. There is a minimum bid of $400. Take this opportunity to look at it, spend some time with it, and place a bid if it is meant to go home with you.

Your convention committee co-chairs,

Annette Weis and Sandi Ruelke
Thursday Evening, June 15, Gannett Auditorium, 7:00 PM
OPENING CEREMONIES with Sue and Aaron Singleton

Join Aaron and Sue for the Convention's Opening Ceremony, in which they will share applying the Law of Ideals to 'navigate our future.' Well-established ideals are crucial for creating a future we love, both as individuals, and as part of the great community of dowsers. Aaron and Sue will also use an Algorithm and Tibetan Bowls to raise our vibrations, encouraging inner peace, to allow for intuitive clarity and accuracy.

Friday, Saturday & Sunday Mornings, June 16, 17 & 18
7:30 to 8:30 AM, 2nd floor of Murray Atkins Dining Hall
YOGA with Dorothy Kerzner and MEDITATION with Roxanne Louise

A wonderful way to wake up and start your day! In Dorothy’s Yoga sessions, you start with protection and warm-ups and continue with Yoga asana, breathing and relaxation. This may be your first experience or your 100th and both Dorothy and Roxanne have the ability to tailor their sessions to the participants so everyone's level is included. Roxanne's meditations start with a short breathing routine, followed by an intention to connect to your Higher Self for centering and balance, release unnecessary stress, and heal what you need to heal. Part will be guided and some time will be provided for your own individual work.

Friday, Saturday, Sunday Lunch Time or Free Time, June 16, 17 & 18
EXPERIENCE THE SPIRITUAL BLISS OF CHARGING A LEY LINE
with Madis Senner

There will be group meditations around lunchtime and dinner time on a Ley Line. Meditating on a Ley Line amplifies the spiritual experience of meditation, which can bliss you out. Because of this, please join us before you eat, thereby the food can help ground you if necessary. Meditating on a Ley Line can put you in touch with Mother Earth and help raise the vibe of an area. Once charged, a Ley Line can have a palpable feel to it. Meeting spot to be determined.
Friday, Saturday, Sunday, June 16-18

MEDITATIVE SANCTUARY WALK
Dawn to Dusk with YOU

Take a walk in the Spirit of Nature Sanctuary. The path begins directly behind Wilson Chapel in the North Woods. It is a quarter-mile walking path intended for reflection and meditation. While walking you will find special markers with quotations on nature and from various spiritual traditions. A map is available. It's an easy path to follow and the Jonsson Tower is always in view.

Friday, Saturday, Sunday, June 16-18

WALK THE LABYRINTH
(and maybe a visit with Stone Tree)

Special location: ASD's labyrinth will be adjacent to Fallstaff's, the campus social building located directly across from Bolton/Palamountain Hall parking lots. It is on the North side of campus so look for the signs as you approach Bolton so you will know where it is. If Stone Tree is able to come this year, his unique and special natural items will be near Fallstaff’s as well. We'll let you know about Stone Tree. Watch for an announcement and weather permitting, there may be a special happening at the Labyrinth. The Labyrinth is available for your use anytime between dawn and dusk.

Friday, Saturday, Sunday, June 16-18

EXPERIENCE a FIELD of CONSCIOUSNESS
with Madis Senner

We are hoping to cordon off or at least indicate an area north of the North Broadway entrance next to a pond that contains a Field of Consciousness (FOC.)

People that have lived on, or close, to a FOC have been leaders in reform and spirituality. Ley lines originate from a FOC and it is believed that meditating or spending time in a FOC raises your consciousness. Watch for announcements.

Gannett Auditorium, 12 Noon, June 18

CLOSING CEREMONY
with Sue and Aaron Singleton

Join everyone for a very short official closing to mark the end of a dowsers gathering and anticipating the future.
A Manual for Developing Humans

During her third near-death experience, Dr. P.M.H. Atwater was told to become a researcher, and then to write three books by *The Voice like None Other*. The first was not named; the second was *Future Memory* (based on the format of a labyrinth/a brain changer); the third, *This Unusual Manual*. Based entirely on threes, there are no chapters... only the conscious, subconscious, and superconscious aspects to each topic – every topic – as the Manual contains the basics on every level of life.

While Dr. Atwater shares her story, all 28 thought-form drawings that separate sections in the Manual are shown in a special PowerPoint presentation. Thoughtform shapes comprise the energy released into the air once thoughts are created. Near-death experiencers, psychics, artists, and spiritual adepts sometimes comment on being able to see such shapes.

The idea of “mission,” hers, ours, everyone’s, is explored, along with several remarkable stories. The idea we have for developing spiritually, however, misses the real challenge... to become fully human. To be all that we are, to envelop the spiritual as we embrace and balance all other aspects of humanhood, that’s the goal. “Hu” was the ancient sound of God. “Hu-Man” meant “God-Man.” God-man, God-woman. All religions speak to this in some manner. All those who undergo a transformation of consciousness, no matter how, come to face this... our true self, our real self. We are “gods in the making.” It is time to become who we already are.
P. M. H. Atwater, L.H.D. is one of the original researchers in the field of near-death studies, having begun her work in 1978. She has written fifteen books on her findings - the last, "Near-Death Experiences: The Rest of the Story," a wrap-up of her near-death findings along with her theory about transformations of consciousness - covering 43 years of work both with near-death experiencers and those who had an intense spiritual transformation (covering nearly 7,000 child and adult experiencers). Some of her findings in the near-death field have been verified in clinical studies, among them the prospective study done in Holland and published in *Lancet Medical Journal*, 12-15-01. Her "The Big Book of Near-Death Experiences," brought the entire field of near-death studies up-to-date worldwide, and was featured in an online version of *Newsweek Magazine*. Her latest, "Dying to Know You: Proof of God in the Near-Death Experience", is a summary of experiencer voices speaking their word, their truth, what they learned.

In 2005, she was awarded the Outstanding Service Award from the International Association for Near-Death Studies (IANDS), and the Lifetime Achievement Award from the National Association of Transpersonal Hypnotherapists (NATH), as well as an honorary Ph.D. from a school in Sri Lanka. In 2010, she was also awarded the Nancy E. Bush Award for Literary Excellence and the Lifetime Achievement and Special Services Award, both from IANDS. She has presented her findings for many organizations and schools, including twice at the United Nations, and as a guest on such TV shows as *Geraldo, Regis and Kathie Lee, Larry King Live, Sally Jessy Raphael*, and *Entertainment Tonight*. Her books have been published in over 12 countries.

Also a generational researcher, she has completed “Children of the Fifth World: A Guide to the Coming Changes in Human Consciousness”, “Beyond the Indigo Children," and “The New Children and Near-Death Experiences”. Her story as an experiencer of near-death states – “I Died Three Times in 1977 - The Complete Story" - is available at Amazon.com. She is a prayer Chaplin, visionary counselor, wife, mother, grandmother, and her website is filled with many services and features, among them The Marketplace - where near-death experiencers and those like them can promote their products and services without any charge to them. Her monthly newsletters are free to those who sign up on [www.pmhatwater.com](http://www.pmhatwater.com).

Water as Medicine

Water - magical, mystical, miraculous water, creator and destroyer, how well do we know you? As dowsers our curiosity to explore and understand the physics, chemistry, biology and metaphysics of water seems only natural. As children of the Aquarian Age, what can we learn and understand from the words of Jesus in Luke 22:10, “A man will meet you carrying an earthen pitcher of water; follow him into the house where he goes in.”

Water was referred to by Johann Wolfgang von Goethe as “the ground of all being.” Goethe had an early understanding of quantum physics, and the holographic principle, seeing the oneness and interconnectedness of life. The water protectors at Standing Rock have awakened humanity to the need to protect this precious resource and restore our understanding of water as sacred - sacred wisdom, sacred means of communication, sacred teacher and sacred medicine. Let’s explore together!

Lindamarie Hill is a founding member of the Adirondack/Lake Champlain Chapter of ASD, and has been a speaker at the National Convention for many years. Dowsing has been an essential part of her practice, teaching and writing. Blending spirituality, science and mysticism, she teaches internationally and wrote a mind/body/spirit newspaper column. Identified many years ago as a Shaman, she was told her lessons come directly from “spirit.” A Master educator, healer and dowser, her dedication to the paths of Bhakti and Karma Yoga, includes devotion to the Divine in all, and action and service to all.

THE FOUNDATION COURSE IN DOWSING
With Joan Reid, Tick Gaudreau and Sandi Isgro

Dowsers know that dowsing changed their lives and the lives of those around them. Your instructors will share their knowledge of the art and science of dowsing so you can fully participate in this ancient means of knowing. Many of us dowse to find lost objects, keys, pets, and other personal items. Some of us are also called upon to dowse for water, oil, and minerals. We use dowsing to get answers to “yes-and-no” questions, to help us navigate our futures, and to make decisions. The goal is to teach you the fundamentals, the “foundation” of dowsing and give you the opportunity to practice these fundamentals so that dowsing becomes part of you.

A pendulum, L-rod, Y-rod, and bobber are included with your course materials. The course materials include an informative manual containing a wealth of knowledge about dowsing. You will learn how to use four basic dowsing tools that will be included in your kit. You will learn how to prepare yourself to dowse, and practice how to get your dowsing tools to give you various responses, including answers to “yes-and-no” questions so you will get good answers. You will be coached by seasoned Dowsers in small break-out groups that offer individualized attention, answers to your questions, and years of dowsing experiences (and, of course, years of dowsing stories.)

At the conclusion of the course, you will receive a certificate as a reminder of your achievements. Finally, at the end of a fun and fast-paced learning day, when the course is completed, you will have the skills, knowledge, basic tools, and confidence you need to commence your dowsing journeys and further studies. *Note: Course materials included in fee.

RADIONICS AND DOWSING: ENERGY COUSINS
Marty Lucas

Radionics is a left-brain approach to right-brain work. Radionics Operators can use tools and equipment to do much of the same work as do dowsers. Learn about the difference and similarities of the two. Learn how radionics can open up an entirely new area for you.

This class will introduce radionics and give the student an opportunity to use a radionics instrument. There is no better way to become a better dowser than to learn how other subtle energy workers approach the same challenges as we do.

A limited number of Radionics Instruments will be available for student use, on a first come first serve basis. Please register early.
This full-day workshop explores the geomantic principles involved in the creation of sacred space. Over the course of the day, we will study some historical examples of sacred sites and discuss how their form supports their function, before dowsing outside for a suitable location containing a nexus of earth energies on which to construct our space. We will learn how to incorporate significant astronomical alignments to help anchor the site in Space and Time and look at other methods for energizing the space, before collectively constructing and activating it to perform a group-designed ceremony. Please bring a crystal or small stone to use in the space.

This is a concentrated masterclass in hands-on geomancy techniques that is normally spread over 10 days. During this workshop at the 2016 West Coast Conference, we called upon the water dragons to end the drought in California, and look how that’s turned out!

FULL DAY WORKSHOPS

EXPLORING DOWSING BEYOND THE FOUNDATION
Tick Gaudreau and Joan Reid

Ideal for a Foundation (or a Basic Dowsing graduate) and the Intermediate Dowser looking to explore more specific areas.

This full-day workshop is designed as an overview of the many aspects of dowsing for the beginning or intermediate dowser. Its audience is the people who have just or recently taken the Foundation Course or have an understanding of the basics. For those Dowsers who have been around for a while and feel a bit rusty, this course can open-up your dowsing skills.

We will present seven areas of dowsing: map dowsing, chart dowsing, water dowsing, dowsing for lost items, dowsing the human energy field, dowsing for wellness, and dowsing for energies in our environments. This overview is designed to inform and encourage you to study and explore further.

With all of the areas covered in this intensive overview, it is not intended that you become an expert in all. However, each topic will be presented with practice time allotted for you to interact in break-out groups with seasoned Dowsers to guide you. Other dowsing topics will be introduced and mentioned and explored as the class unfolds and time permits. Bring your favorite dowsing instrument.

The target Dowser for this class is one who has some basic skill and wants to explore the various dowsing specialties. This is not a beginning or Foundation Course. Those who have never learned to dowse would be better served by the Foundation Course being offered on Wednesday, June 14th. Come and explore the many areas of dowsing in a relaxed, informal setting with others on the same path. Note: Bring your own tool(s) and we will have a small selection available to borrow.

SOUL TO SOUL HEALING
Lindamarie Hill

Soul to Soul Healing is a shamanic method of healing that evolved through spiritual guidance and experiences with clients over the past twenty years. Lindamarie began teaching these techniques in Europe many years ago. The method has evolved and expanded with her clients being the greatest teachers. Each of the modules has been a past presentation at the American Society of Dowsers Conventions. Bundled into this one workshop, they provide training for healing practitioners, or personal healing experiences for convention participants.

(continued)
This workshop will include four experiential modules:
1. Connecting to Guardian Spirits or Healing Guides and A Spirit Release Practice – Learn how to discover the role of guides/angels in co-creating and executing our present life plan. Learn the role of spirit attachment in illness disease and violent acts. Learn to clear attachments.
2. Exploring and Healing Past Lives – Learn the role of past lives in our evolving soul plan. Journey to discover a past life that is influencing the present.
3. Soul Retrieval – Recapturing and Healing Lost Soul Parts. Learn how the soul becomes fragmented. Participate in restoring and reclaiming the essential beauty of the divine self.
4. Core Wound Healing – Learn how core wounds have an impact on personal and global development and may even be the root of many human social ills, and an answer to why certain conflicts and issues persist throughout the world. Learn techniques to bring balance and wholeness, healing core wounds.

MEET E.T. ALIEN ENERGY WITH DOWSING
Susan Collins

Are Extraterrestrial Aliens real? If they are real, who are they and where do they come from? Do they come from another place in our physical Universe or perhaps from a different dimension in a parallel Universe? What do they want? Some seem to want to help us for our benefit and some want to help us for their benefit. It’s important to understand the distinction! As with many forms of energy, there appear to be beneficial, non-beneficial and neutral categories of E.T. Aliens. To stay safe, you need to know which kind you are dealing with.

We will use dowsing to create a safe place to ask these questions and many more. We will learn to detect and control interactions with off-planet, other-dimensional and other-time Energies and Beings that may be affecting you. We will create psychic protection and remove outdated vows that may be allowing unwanted interaction with E.T. Aliens. What you learn in this class can be applied to Human and Angel interactions as well.

Susan will guide you through a gentle process that can provide answers to the questions you haven’t dared to ask. All tools will be available for use during the workshop.
SIMPLY HELPING....
Alicja Aratyn

In the history of humanity we have often read of great healers and prophets performing miracles. Many therapists at some point in their professional practice dream more or less secretly about being able to do the same. Nowadays life is more complex and every therapist is aware of the amount of courage and responsibility it takes to assist someone in need during a most challenging period of life. How do you maintain the proper state of mind, body and spirit?

In this full day workshop we will talk and practice what it takes to be a spiritually dedicated wellness practitioner. First of all, what does it mean to be a real therapist? How can you sustain the proper vitality? Who should you help, when to help, and why help?

We will learn tools used to create and maintain all level of our health. Explore feeling the aura or energetic disturbances. How do you detect energy distortions. What we often see is not what is actually present but a fictional picture posted to misinform and mislead us. How can we recognize this and deal with it. This is the dilemma of many—so let’s talk about it and attempt to recognize it. This workshop is full of exercises and a safe environment to practice.

Thursday Morning Half Day Workshops

FUN AND GAMES DOWSING FOR ENERGY AND VITALITY
Ned Wolf

Join with others in this work to explore effective dowsing protocols that support health and vitality. We will discuss the various dynamics of balancing our health, including that each of us resides in a body that has all the necessary resources it needs to correct imbalances. Dowsing can be especially useful to determine how we are blocking access to these inner resources.

Ned Wolf was trained as a dowser by Hanna Kroeger. He will share Hanna’s dowsing methods for identifying the possible physical and spiritual causes of imbalances from toxins to genetics and from suppressed emotions to possible entities.

You will learn about the various tools that are used in these protocols including the use of Radionics equipment. Additionally you will learn and experiment with dowsing exercises to determine the levels of vitality for each organ and system of the body. Participants will learn to access a system for recovering exuberant vitality that has empowered thousands to recover from limitations.

A great way to meet fellow dowsers and start your day.
PSYCHIC AND SPIRITUAL DEVELOPMENT
Thomas Kearns

A Red Light Séance and Class – Manifestation of Spirits

Albert Einstein said, “Imagination is more important than knowledge… knowledge is limited… imagination… embraces all there will ever be to know and understand.”

This Red Light Séance and Class will consist of three distinct components. First there will be a meditation to open the imagination; second, a focusing visualization; and finally, volunteers will be invited to sit with the Red Light allowing spirits to manifest.

This process will 1) empower your ability to see and sense spirit guides and loved ones, 2) open the power of your intuition and understanding and 3) enhance your Spiritual and Psychic gifts by helping you make spirit contact.

To quote Einstein again, “Science without religion is lame and religion without science is blind”. The imagination is not the Spiritual or Psychic, but it allows us to make contact with Spirit and the Psyche. The Red Light Séance demonstrates the imagination as the doorway to the psychic and spirit.

Different visionary and perceptual techniques are used to develop and focus your imagination and intuition as powerful psychic and spiritual tools. Volunteers will have the opportunity to be the focus of the red light if they desire to allow spirit to manifest around them.
Thursday Afternoon Half Day Workshops

FOUR PILLARS OF SELF-PROTECTION
Barbara Stone and Robert Alcorn

This workshop is for people who know they are here to heal the world but feel afraid they will get in over their heads if they fully develop their healing gifts. It provides a platform of four pillars of self-protection to provide safety: Centering, a Body Protector, an Essence Protector, and connection with one’s True Self.

For muscle testing or dowsing in any other form to be accurate, both the client and the energy practitioner first need to be centered in all three vectors of the human energy field: up-down, front-back, and left-right.

Participants will learn how to assess each vector of the etheric body with dowsing and simple corrective exercises to get fully centered. Participants will then do a guided visualization to find a protector for the physical body, a protector for one’s immortal essence, and the most important protection of all, which is aligning with one’s True Self—standing in the power of who you truly are!

STAYING ALIVE!
Jini Cerio

In this workshop, I will go into depth on checking percentages of what organs are functioning at. Check the percentages of what elements, minerals, and vitamins are in the body, and how to bring the body back in balance.

Learn how to distantly dowse using an anatomy book/charts/drawings. Learn how to distantly heal from an outline of the body. Learn the usage of pendulums in healing physically and emotionally.

You will learn to understand what is going on in your body and how to bring it back to balance. If you have elderly family and friends, this information is a lifesaver for them. Know what your body has been trying to tell you with all the hints of aches and pains.
MAXIMIZING YOUR QUANTUM ENERGY TO STAY YOUNG AND HEALTHY!

JOHN BUTLER - A CLAIRVOYANT’S GUIDE TO PHYSICAL AND FINANCIAL HEALTH

Dowsing charts and protocols will be shown on determining the causes, blocks, and solutions to all kinds of physical health problems. The 4 biggest little known causes to many different health problems will be discussed. The 3 primary causes to prostate cancer will be covered. John will discuss what he has seen clairvoyantly on every client who has had breast cancer. The 3 most common blocks, and solutions to financial prosperity will be covered. A large variety of other topics will also be discussed. How to be a healthy and successful person is the goal of the talk.

KATHLEEN MILLER - CENTERING TOOLKIT FOR ENHANCED RECEPTIVITY

Centering practices can enhance our receptivity and clarity in dowsing. This workshop will cover various centering practices, combining lecture material with experiential exercises. Specific modalities include: aromatherapy, breath work, mini-relaxations, heart-brain coherence, imagery, chair yoga, mudras (hand yoga) and sound. Come- relax, explore, and center in a supportive environment!!

NED WOLF - FUN & GAMES WHILE DOWSING FOR ENERGY AND VITALITY

This is an exploration of effective dowsing protocols that support health and healing. We will discuss various dynamics of healing, including that each of us resides in a body that has all the necessary resources to correct any imbalance. Therefore, dowsing can be especially useful to determine how we are blocking access to these inner resources.

ED ANNICK - STARTLING RESULTS THRU ENHANCED EFT

Most EFT practitioners “open the bottle,” so to speak, but don’t know what to do with “worms” that are now exposed. This leaves the client in worse shape than if nothing was attempted! Additional steps that have been discovered which afford results of 90+% on emotional problems and 60+% on related physical issues. These additions reduce/eliminate the “blocks” and include prayer.

DAVE KANE & RIKI KRETSCHMAR - GOLD

Gold is a strange material that we have too many preconceived notions about. We perceive it as money instead of paying attention to what it is, false value is an interesting diversion process. One form of gold is essential to all life as it is the facilitator of consciousness itself. We present some thought provoking material, physically, culturally and scientifically to focus on this aspect. Catching the thread of this is interesting as you already have many experiences that will be enhanced or correlated to this information. Gold is physical in several forms, like water, ice and steam. It is also spiritual and likely the medium of energy data transfer as seen in the Dowsing experience. Water is the biological and earth computer, gold is the electricity that allows it to run.
DIANA DOMINGO & TRENT MILLET - INTENTIONAL HEALING DEVICES

In this "Navigating the Internal and External Sound Currents!" presentation, we will discuss the world of Sound, Frequency and Vibration and explore the role of our Voice in shaping and manifesting our reality, helping us to clear obstacles and ultimately heal our body, mind and spirit. Everything in our universe and in our bodies has a voice and therefore we are in constant dialogue with ourselves and existence around us. The Body speaks to us. The world speaks to us! Voice, Breath and Listening are natural dowsing methods we are all born with. Through vocal toning and scanning / mapping, we can learn to create more clarity, space and harmony in our daily lives…Through looking at various modalities, including the Science of Sound “Cymatics” and “Dowsing” with our voices, we will see how sound creates patterns and impressions, affects thoughts and emotions and offers us a gateway to higher consciousness.

MARTY LUCAS - SACRED GEOMETRY IN OUR ENERGY FIELD

Our energy field is not just a blob of light. It is a compilation of a myriad of shapes. When the energy field changes, it is because the shapes that make up that field have changed. If an organism has an infection it is because the shape of the infectious agent is able to attach to the energy field of the host. When we look at issues based upon their shape we are able to work faster and more efficiently and achieve permanent results. This presentation will change the way you look at health and wellness issues!

LEROY BULL - MAP DOWSING

This 2017 Map Dowsing presentation is for accomplished dowsers, who wish to expand their abilities to include a particular form of information dowsing called Map Dowsing. I have dowsed for water and items around the world and this has led to much success, much learning and contacts with people I would not ordinarily have met. This brings me great joy, and I am looking forward to sharing this with you. I will have new unmarked maps this year. This workshop will be a challenge and thus not amenable to brand new dowsers. As we practice dowsing, in my wife’s opinion unlike the AMA folks, we just learn more and more. Please show up with your favorite tools, I have no bias against any of them.

GLENN CRATTY - DOWSING INCEPTION POINTS TAKING IT FURTHER

At the 2016 Convention in Saratoga Springs the president of ASD gave a workshop in which he mentioned the ancestral inception point cause of some problems or issues we might face. We have taken the inception point concept further in the context of psychotherapy. We have found that there are not only generational inception points but also past life inception points, current life inception points and problem specific inception points. This workshop will teach how to dowsse to get the information necessary to then apply the protocols and invocation for scrambling the information of each type of inception point cause.
TRENT MILLET - DOWSING THE WONDER WATERS OF SARATOGA SPRINGS

In this virtual tour of Saratoga Springs and the area’s healing waters, we'll explore the many properties of Saratoga's natural springs and their use for health, wellness, cooking, and the application of the waters so important to our inner existence. We will also take a look and discuss the spiritual and meditative messages offered by the living consciousness of water. There are frequencies in everything and we'll speak of the interaction of relationship and the information shared with water. It's more than knowing how to dowse the location of water but the empowering and personality aspects of the liquid magic we call water!

SUSAN COLLINS - WHAT DO ALIENS WANT?

Some Aliens want to help us. Some want to observe us. Some want to use us for their own purposes and think that’s OK! We need to be able to tell the difference between different types of Beings, and dowsing is the way to do it. (And by the way, what you learn in this class can be applied to Human and Angel interactions as well!) Step into your power and create psychic protection to enhance your health and prosperity so you can help yourself, your community, the planet and beyond. Susan will share her Dowsing and Triage Protocols as well as techniques and tips from her years of sagely interacting with Other-dimensional Beings. Essential handouts will be provided.

DAN ARSENEAU - CLEARING LAND, HOMES AND GARDENS

Land holds and carries energetic memory, some naturally and some man made. A portion of this energy isn’t beneficial to humans and can cause or contribute to many chronic health conditions. This energy can be physically and energetically toxic. Dan will present a dowsing protocol he uses to clear, balance and neutralize homes, land and gardens of non-beneficial energy, entities, thought forms, geopathic energy lines, EMF, portals, trapped emotions, energy cords and more. This is a "how to" class that you can use with your own dowsing skills to clear and transform your property. He will also show you some the tools and devices he uses in clearing; many are simple homemade DIY. He will also have information about working with and co-creating with your land Elementals to transform and raise the vibration of your landscape, gardens and property. Why not ask for advice from your own experts, your own Elementals! The fun begins when you ask them what they want! While based in dowsing, this information also touches on aspects of geomancy, Feng shui and the shamanistic traditions. However we label them, it’s all the same energy and vibration.
**GARY PLAPP - DOWSING THE HIDDEN UNIVERSE**

A typical person experiences a relatively small portion of the world while most dowsers experience much more. It is this expanded awareness that allows for a richer, fuller life with a higher understanding of the nature of the universe. Validation and acceptance of dowsing opens possibilities in using higher awareness to directly experience the unseen world. All people, especially dowsers, have the potential to utilize all twelve natural senses. Gary will share dowsing techniques to open awareness and release old filters to enhance our true intuitive selves. Believing is Seeing!

**RAY & GRANT CAHILL - CONNECTING WITH YOUR MINERALS**

Guided Meditation with Crystal Spirits

Every mineral we work with to achieve our goals or feel the energy of, we make a connection too. During this class Ray Cahill will personally teach you to strengthen and deepen this ability to connect to all of the minerals in the mineral kingdom. Through strengthening this connection you will be able to more intuitively pick your minerals, feel their vibrations and energy and move forward towards enlightenment. As you strengthen your abilities to connect with minerals and crystals this will be a powerful ally as you continue to move forward. I’m excited to share the amazing world of minerals and crystals with you and I hope you can experience it with me.

Join Grant Cahill as he leads a guided meditation using the healing energy and channeled words of some of his favorite minerals and crystals gathered from around the world. During this guided meditation you will be connected to many different and powerful minerals and crystals as their energies are drawn into the room. The intent of this meditation will be decided by the minerals and by what will be most healing for the group. This meditation can range from healing ancestral karma to feeling our own sacred oneness or inherent divinity. During this class you will gain abilities and connections which you will be able to develop and use throughout your healing process. Treat yourself to a unique opportunity to connect with some amazingly powerful minerals with vibrations unlike any others.

**GALE WEST - MANIFEST WITH GREATER EASE**

The keys to manifesting with ease require a clear desire, belief and expectancy. But, how do we know how clear our desire is? Is what we think we want what we really want or what we think we should want? Is it really in alignment with our heart’s desires? Are there conflicting beliefs that cancel each other out? How open are we to receiving? This workshop will explore all of these issues and invite the use of a dowsing protocol to determine the percentage of alignment with your ability to manifest with ease.
ROXANNE LOUISE - DOWSING FOR SOLUTIONS
Got a problem? Got a goal? Presented here is a wholistic system of goal achievement that can be adapted immediately with dowsing to help you find solutions that work for you. The best dowsing incorporates both left and right brain as it taps into the universal sea of consciousness for information. It uses knowledge about the topic, experience and analytical skills to know how to design dowsing charts, what questions to ask, and what to dowse out. And while it utilizes our conscious mind, it connects to our subconscious mind and beyond to something MORE that is also us, and finally further beyond to something MORE that goes beyond our individual self. Dowsing is utilized to set clear intention, vision, inspiration, increased allowance, eliminate blocks, identify resources, options, right questions, and an action plan.

MARY SWAIN - INTUITIVE COMMUNICATION USING EYE, TOUCH, VOICE AND PRESENCE
This talk is a micro workshop that will speed up your process of self-discovery and lead you through the 3 steps to develop your eyes, touch, voice and presence plus key elements to develop each of them. You will experience these elements during the talk as time permits. You will dowse what you need to do to develop your eyes, hands, voice and presence.

WALTER NESS - SENSING ENERGY: THE UNSEEN HELPER THAT CAN IMPROVE YOUR DOWSING EXPERIENCE
Each of us has a form of energy inside of us that I call “Sensing Energy,” because it senses the vibrations of our environment—for example, the energetic vibrations of other people, buildings, nature, etc. Many dowsers complain that they “pick up” noxious energies or bad vibrations from their environment, but you can learn how to respond effectively to this challenge. After explaining how your Sensing Energy operates, I will explain how you can become more aware of what your Sensing Energy is picking up, so you can consciously focus on what is “good” in your environment, and limit picking up what is “bad.” Participants will practice how to be aware of and use their own Sensing Energy, and how to pick up good vibrations from your environment, so you can benefit more fully from the good energy all around you.

JOHN THOMPSON - MAXIMIZING YOUR QUANTUM ENERGY TO STAY YOUNG AND HEALTHY
This life-changing, experiential presentation includes Quantum Touch for Health, Reflexology, The Fountain of Youth, Orgone Energy, Kinesiology, Breath of Fire, Mantra Breathing, Kombucha Mushroom Tea, and other powerful practices that help people avoid the negative aspects of aging. John has been a daily pendulum practitioner since 1974, using his pendulum to assist in making decisions and choices, both minor and major.

SANDY MCKENZIE and JOHN BUTLER - THE POWER OF SHAPES:
ENERGY PENDULUMS AND PATTERNS

In the twentieth century, French physicists and engineers were investigating the energy frequencies emitted by shapes and created a vast array of Energy Pendulums and Patterns. They named this discipline Scientific Radiesthesia. These devices do not rely on mental questions by the dowser and are widely used in the non-English speaking world.

In 2016 Sandy McKenzie and John Butler introduced the ASD to a selection of these Energy pendulums to a very enthusiastic response. This year Sandy and John will give an update on new discoveries and experiences with the Energy pendulums. Sandy will introduce the most useful Energy patterns.

ALICJA ARATYN – DOWSING: SCIENCE OR MAGIC?

Dowsing, known for millennia, is still treated as a type of superstition despite of the fact that the ability to connect with everything is as natural to people as speaking or hearing. Quite often success in life depends on precision of communication with both: higher dimensions or fellow humans. Similarly the main key to success in dowsing is precision of communication. By perfecting that skill in dowsing, we can bring more successes into every aspect of our lives. As dowsers, through our service, we change people’s lives by helping them to regain health, protect their environment and find answers to their everyday questions. Many successful businessmen use dowsing to predict stock exchange trends and make important business decisions, which is also part of a consultation some dowsers offer. After this lecture you will have enough knowledge to make your own decision—whether dowsing a science or magic?

ADHI TWO OWLS - DOWSING AND DREAMING

In this talk Dr. Adhi will present ways to use dowsing as a means to change the dream as an individual and global practice. Adhi will cover the science behind what stimulates the brain wave patterns create change and support a better way of being. Shamans have known for years that patterns, sounds and actions shift our minds and bodies and during the talk you will learn techniques for exploring ways to work with your pendulum, rods and bobbers for greater change.

MARK HURWICH - SUPERCHARGE YOUR WHY:
DOWSING FOR CORE INTENTION

You’ve heard about the importance of your “why.” But capturing it is often a head exercise that can leave you rudderless and frustrated. Wouldn’t it be great if you could boost your emotional battery at will, re-connecting to higher purpose particularly when you’re overwhelmed, feeling lost, or caught up in details? Or, even just to return clarity on your own “true North” when the outside world is overwhelming your dowsing signals.

In this presentation, Mark Hurwich will help you viscerally connect to your gifts and essential purpose in a way that resonated in your heart, body, and spirit—not just your head. You’ll do this process around a specific challenge in a way that creates an actual experience of the outcomes you want. The result: not just a distant image of the life you want to live more fully, but actually getting there. You’ll also learn (if you don’t already know it) body dowsing to calibrate impact and refine focus.
WENDY HALLEY - HEALING, CONSCIOUSNESS AND THE NATURE OF REALITY: AN ANCIENT PARADIGM

Ever wonder why some symptoms – whether they be physical, emotional, mental or spiritual – are easily treated and others aren’t? In this presentation we’ll explore the complexities of healing and consciousness through the lens of indigenous Polynesian philosophy.

Please join author Wendy Halley for a thought-provoking discussion that examines the intricacies of healing and consciousness using the concise and intriguing framework the ancient Hawaiians developed to describe the nature of reality. Specifically we’ll examine how healing works as well as the source of symptoms within this framework.

ALICE HARWOOD - HEARTMATH, YOUR INTUITION & DOWSING

This HeartMath presentation includes scientific findings regarding the impact of our heart on our body and surroundings, as well as an introduction to the Freeze Frame® Technique. Learning how to align your brain and heart is the first step to building coherence, which impacts your physical, mental, emotional and spiritual health. Tracking your daily coherence with technology allows you to build up emotional resiliency and provides you with a solid base from which to begin dowsing and gaining more access intuition.

DEBRA PETERSON - MERKABA ENERGETIC DOWSING™
A NEW DOWSING PROTOCOL

Merkaba Energetic Dowsing™ is a brand new dowsing protocol for land and home clearing, which uses an Angelic Merkaba (sacred geometry) as an energetic interface between the dowser and subtle energies. The Angelic Merkaba is a unique intelligent energy device which clears negative energies and raises the energetic vibrational level of homes and land. This new powerful dowsing tool is able to create sacred space, plus amplify ‘positive vibrations’ into the newly cleared sacred space. The Angelic Merkaba’s power is based upon stellated star octahedron sacred geometry configuration and vortex scalar amplification. It creates a portal for intention amplification of the dowser’s space clearing intent. The ‘Merkaba Energetic Dowsing’ protocol complements and enhances other dowsing protocols, or it can be used as a stand-alone powerful dowsing and space clearing process.

HOPE FITZGERALD - INTRODUCTION TO THE INFINITY WAVE

If you yearn to heal the past, thrive in a present of unlimited possibility, create a new blueprint for your life, or make an evolutionary leap then the Infinity Wave is for you. Learning this channeled, higher-dimensional energetic will help you to create the reality you desire. Think of it as a simple, practical and powerful tool to awaken the infinite YOU, giving you a way to connect to your higher self, others, and the Earth. It will easily and quickly navigate you through choppy, uncharted waters, putting to rest the old belief that deep change takes much time and suffering. In its basic form, the Infinity Wave can be used to encourage flow in everyday life, while at its most evolved, it is a vehicle for spiritual enlightenment. This presentation will be practical as well as educational. I will discuss the visions that brought the Infinity Wave and do a 10-minute practice with a crystal bowl for people to experience it first-hand. Ways to work with it will be shared and we will dowse to measure the Wave’s impact using the Bovis scale. Sounds too good to be true? Come and see for yourself!

Dowsers are like wizards. They connect with higher realms to obtain knowledge. As dowsers, we know that thinking may actually get in the way of the results. A wizard does not think, he knows. By building our light quotient we can become like the wizard and increase the accuracy of our dowsing. We will explore ways to increase the levels of light in our body and environment using sound, light and our mind. The Bovis scale will be used for checking the increases in the levels of light. Bring your pendulum. A Bovis scale chart will be provided. We will also be checking the levels of light in our environment, food and other things. Caution the side effects of this class may be better health, better connection to higher self and more knowledge and discernment. www.pyramidwellnesscenter.org

JIM WILLIS - QUANTUM DOWSING: A NEW UNDERSTANDING OF AN ANCIENT CRAFT

Until recently, most dowsers pictured energy flowing through the earth like a spider’s web. Perhaps it’s not like that at all. Instead of a grid-like series of connections, the cosmos now appears to be a field wherein everything is on, all the time. Physicists use the term entanglement –the phenomenon whereby a particle “there” is instantly affected by the movement of a particle “here,” defying the rules of classical physics. They are connected, no matter how far apart they may be.

In a brilliant leap of insight, ancient Hindu mystics discovered such an infinite field, they called it “Akasha,” the ground of all being, eternally at peace yet pregnant with possibility; a field of rippling waves of creative energy awaiting intentional manifestation; infinite and eternal Consciousness itself, awaiting form. It can be experienced through a couple of dowsing rods!

TOUR & DOWSE THE MINTERAL HEALING SPRINGS OF SARATOGA SPRINGS

This will be a tour of the Natural Healing wonders of Saratoga State Spa Park and her Healing Waters hosted by Aime “Trent” Millet. Stroll and sip and dowse the Geyser, Karista, and Polaris springs. Which ones make great smoothies? Which spring flows iodine for the thyroid, or the iron for skin? How old is the Orenda “tufa”? We’ll dowse some amazing vortexes and energy lines as well. Maybe search for a couple missing springs. It’s your tour!!

ELLEN KAMHI – DOWSING BOTANICALS FOR PAIN HERBS, DOWSING, AND RADIONICS!

News stories abound about the possible dangers of some medications. Since pain is such a common human affliction, societies around the globe have experimented with many natural remedies to discover which ones are most appropriate for this purpose. Science now provides evidence of their usefulness and safety. Find out about Natural Pain Management Alternatives.

Empower yourself by learning how to use Dowsing and Radionics to honor and interface with Herbal medicine. Enhance your ability to choose: which herb for whom, when, how much, how often, which combination….learn how to use intention and understand the laws of non-locality to free your ability to influence healing at home as well as from a distance.
LORNA REICHEL - COMPUTERIZED DOWSING FOR THE TECH SAVVY DOWSER

What happens when you dowse with a computer? Does it give you more detailed information? Does it give you a different kind of information? Does it open up fields of possibilities? See a demonstration of computerized dowsing and how it can be used alone or to enhance other energy practices. Many aspects of subtle energies will be covered.

SUE SINGLETON - MEDICAL INTUITIVE INSIGHTS

Sue sees physical/emotional trauma, physical/emotional shock, misalignments, organ and gland conditions, and the root cause(s) of their imbalances. She sees holes, debris, incoherent/distorted frequencies in the bio-plasmic and torus fields, as well as the details of emotional patterns, habits, behaviors and traumas and their health effects. Sue’s ability to differentiate bacteria, viruses, parasites and fungus, medication, street drugs, x-rays, MRI’s, EMF, vaccines, and subsequent damage to your organs, glands and brain are beyond compare. Sue’s 8,500+ detailed readings on clients throughout the world, cause her to be one of the most sought-after medical intuitives of our time.

Are you seeking medical intuitive assistance, or exploring your gifts to determine if you are a medical intuitive versus another type of psychic/medium/intuitive? We’ll explore what Medical Intuition is, and is not. In this unique opportunity to witness Sue’s realm of expertise, she will provide numerous examples, and perform readings on several audience volunteers.

JARIN KENYON - HUMAN DESIGN

Human Design is a soul science that shows us how we are each individually designed to operate, navigate, and manifest, comprised of the I-Ching, Kabbalah, Chakra System, DNA, Astrology, and Quantum Mechanics. Learn where your personal "authority" is located and how to follow it. Human Design is a road map to the destiny of our lives. Combining each unique design with others manifests based on how each person blends together. Forget your sign, what’s your "design."

NANCY BODENSTEIN - VIBRATIONALLY SPEAKING

Because everything is a vibration, it is important to know whether they are good for us or not good for us. Technology is useful, but not all of it may be good for us. Foods are being changed to a point that our bodies cannot recognize and use them. Chemicals used on our foods are causing frequency deficiencies in our bodies. Essential oils carry frequencies that our bodies may need. This presentation will be an investigation of some ways to protect your health.

GINETTE MATACIA-LUCAS and ANGELA FORD

MISSING PERSONS, OBJECTS, & MYSTERIES

Presenters discuss their unique Dowsing, combined with remote viewing, for locating missing person case work, and their abilities & insights, to find missing objects, treasures, and mysteries.

GRAHAME GARDNER - DOWSING MAGIC – SYMBOLS, SHAPES AND SIGILS

Programming the Quantum Wave. In this practical session we shall explore the power and etheric form resonance generated by geometric symbols and shapes, using our dowsing to compare the effect of various sacred geometric forms on the human energy field and see how they affect earth energies.
We will then learn how to encode our intention into the form of a sigil, which is a graphical distillation of purpose that can be programmed as an ongoing emitting matrix requiring no further consideration. We'll look at how to create them, some things that they can be used for, and how to activate them to achieve our goal.

BARBARA STONE and ROBERT ALCORN
DJINN: THE HIDDEN ONES

Stories of genies and magical happenings abound in fairy tales, ancient texts, TV shows, and movies. The Djinn, commonly known as genies, are a race of fire elemental beings who interact with humans from another dimension. Sorcerers summon Djinn to request riches, business success, a partner, fertility, and/or safety during wartime—but these contracts with the Djinn cause trouble for the sorcerers, those who hire them, and their descendants because of the high price the Djinn demand once the requests are granted. Like the story of Rumpelstiltskin, the Djinn may ask for the firstborn child as payment for their services. Drs. Stone and Alcorn will present the work they have done to make peace with the Djinn realm and to help people besieged by strings of bad luck and generational problems. They will demonstrate the protocol they developed using dowsing to find the Djinn and guide the repair process.

ALTHEA GRAY - THE FORGOTTEN MOON

Each month we look at the moon, we are dazzled by its brightness and its incredible ability to caress the tides and ocean waters. We know the moon can influence how we feel, but, we have forgotten the true magic of the moon. The moon represents the magical energies of the Divine Feminine. Original depictions of Mary have her standing on a crescent moon. This presentation will reacquaint you with the lore, the magic, and practice uses of moon magic. We will explore the moon's shadow and how it relates to our own shadows. You will learn techniques to bring into light things buried deep within us........both gifts and things to let go of.

THOMAS KEARNS - ASTROLOGY – PAST CONFUSION - FUTURE BALANCE

This past year was full of confusion, misinformation and disruptive emotions. The culprit may have been the Saturn Neptune Square. The coming year offers a more positive flow of energy as Jupiter, the planet of growth and opportunity is favorable to stable Saturn. Saturn is friendly to exciting Uranus bringing positive change energy and Jupiter opposes Uranus adding some unexpected spice to life. Be prepared to take the opportunities that come your way and make something real out of them. A dream may only be a foot step away from realization.

DOWSING FOR GHOSTS – FIELD TRIP

This fieldtrip will be hosted by Tick and Bea Gaudreau who will demonstrate methods they use to speak with and help individuals and groups of spirits to transition to the light. This will be done in a venue in Saratoga Springs, working with real spirits in a real setting.

ROBERT EGBY - MAP DOWSING IN THE DIGITAL AGE

Since the advent of Google Earth, map dowsing has taken a new upturn in finding and tracking Earth energies with startling accuracy. Energies such as leys, geopathic zones, geospirals and indeed vortexes can be comfortably mapped at home on a laptop then physically checked later. All energies have areas of influence and even these can be read and mapped. Avoiding natural “bias” and performing “blind” readings for energies in your home town and anywhere in the world. Special elements to watch for when tracking long leys, keeping records and coordinates.

MARY FARRELL - DOWSING AND FENG SHUI: TOOLS FOR MANIFESTATION

What do you want to enhance or bring energy to in your life – a relationship, business success, financial ease or something else? Often, we are manifesting in a default pattern instead of engaging deliberately with the Law of Attraction. Feng Shui and Dowsing provide tools to help. The class will include an introduction to Feng Shui principles and how you can utilize dowsing to achieve desired results. In this hands on class, you are invited to bring pictures or sketches of your front door, bedroom or other areas and leave with solutions to problem areas. Handouts will provide you with the tools to continue the exploration at home. No previous dowsing or Feng Shui experience required.

PAT IYER - READING BETWEEN THE LINES

Palmistry offers an opportunity to read the language of the hand. Through palmistry, we can gain a greater understanding of ourselves and the possible directions our lives will take by learning the significance of the shape, structure and lines of the hand. This class will cover the major lines of the hand and how they relate to our emotions, thinking style and health. We will discuss a variety of hand types, shapes and the lines in the hands.

ROBERT CALLAN -

DOWSING TO RAISE THE ENERGY FREQUENCY OF YOUR HOME AND WORK SPACE

Describe and demonstrate how environmental dowsing identifies earth energy disturbances in homes and offices and applies cures to eliminate them. These earth energy disturbances lower the energy frequency in our living environment and impact our own personal energy, health and well-being. Environmental dowsing can identify Positive and Negative Vortexes in our living areas. The application of “cures” can block or convert Negative Vortexes into Positive Vortexes. Also, dowsing identifies Geopathic Stress Lines, Interference Lines caused by cell phone towers and electromagnetic wave energy, along with Negative Hartman and Curry Lines caused by interactions with electric power running through the property. The adjustment and curing of these earth energy disturbances has a significant positive impact on a person’s physical, mental and emotional health and well-being, and also raises the energy frequency in the individual’s living and work space.
KATHRYN DEPUTAT - CLEARING THE CHANNEL

If we’re not clear, how can our dowsing be? This hands-on session, incorporating device and deviceless dowsing, presents a method for getting clear in self and in life. You will learn tried-and-true methods, presented in my book, CLARITY NOW, for getting clear: clearing out the static that interferes with ourselves, our dowsing, and our lives. You will learn how to root out hidden intentions that short-circuit your expressed intentions. You will leave the session with concrete tools for "internal housecleaning" so to speak--tools that can be used again and again over time to maintain clarity, with benefit to dowsing applications as well as personal well-being and navigating life path/direction.

AARON SINGLETON – ULTIMATE ENERGY HEALING WITH THE EOL PROCESS

Aaron founded The Energy of Life (EOL) Integrative Healing Process in 1993, which has the ability to rapidly release trauma, eliminate back pain, release stress, move bones, relax muscles, open lungs and sinuses, eliminate allergies, uncover the root cause of illness, clear emotional patterns, eliminate toxins, and much, much more. His goal in this experiential demonstration is to open consciousness and facilitate healing for all by correcting the imbalances that are causing your discomfort, pain or condition.

Through the use of the EOL Process, Aaron will help you realize the full potential of energy healing. So bring your pain, symptoms, or diagnoses, and allow them to flow gently from your body. Aaron’s phenomenal abilities to work on hundreds of people at a time and provide meaningful results, have caused him to be internationally recognized in this field. Volunteers from the class will be needed.

SUSAN ROSE - DOWSERS MAKE WONDERFUL BIOHACKERS!

Dowsers love managing their health in fabulous and sometimes silly ways. If you already do this, you are a biohacker – applying science to managing your biology for health. And dowsers have such an advantage - determining what to do first, do next and or not bother with! But first you need the latest information!

Come hear the new science - about brain-enhancing herbs, gut-friendly probiotics, and benefits of coconut oil... But what is best for YOU may not fit the norm! Are you outside the box when it comes to human nutrition? Dowsers can do things others don’t ... so let’s see if you can raise the energy of that donut, or whether you need chocolate and maple syrup for optimum performance and mood! Come find out how YOU are different from much of the world… And what to do for optimal health. Fun and handouts included!

MADIS SENNER - SPACE: THE FINAL FRONTIER

The Starship Enterprise took us to the farthest corners of the universe. But is outer space the final frontier? Or is it that which is immediately around and within us.

Ultimate reality, a place few have explored, is all around us. It is a place of alternative realities, Planes of Existence and other dimensions. The aliens Captain Kirk encountered are all around us. Space exerts a tremendous influence upon us. It is made up of our ancestral totems, Jungian archetypes and powerful imprints that manipulate our unconscious mind. It contains Mother Earth’s essences and energies. Space affects our well-being and health and connects us to each other. (continued)
The goal of this thought provoking workshop is to educate you about the space around you and provide an overview of the frontier you live in. Join us for the Exploration and bring your L-rods.

**JINI CERIO - THE REALITY OF BEING HEALTHY**

Imbalances in the body are caused by negative emotions that block the energy in the body that cause the organs to weaken and be out of balance. We will cover finding the percentages in your body, negative or excess of the elements, minerals, vitamins, that the body needs to have to function. The range that the body needs to be in for it to heal itself. How to bring the body back in alignment, using nutritional food, supplements, and pendulums infused with elements, minerals, and vitamins. Learn of the importance of the meridians and the organs that they lead to. Your health is your wealth. This work can also be done distantly. Do you know the real reason people get sick as they get older? Ask me! There will be handouts of class information and dowsing charts.

**HALF DAY AFTERNOON WORKSHOPS**

**BLUISH: THE RULES OF ADVANCED DOWSING & IMAGERY (REMOTE VIEWING)**

Ginette Matacia-Lucas w/ Angela Ford

Advanced Dowsing: Take the next step forward and learn about combining the skills you already have to become a successful Location Dowser. This is the class you won’t want to miss. Two world known experts will educate you on how to consciously combine dowsing with various intuition tools. Both Ginette and Angela have been interviewed by media outlets, i.e., CBS, NBC, Al Jazeera, WRC, CNN and the Russian Media, on their mental skills used to find objects, treasures, and people. Ginette’s dowsing techniques and Angela’s remote viewing skills combine to help inspire and train you to think beyond the boundaries of traditionally defined dowsing.

Dowsing can be passed on to the next generation as was Ginette’s from her Father, Louis Matacia. Angela was intrigued with the paranormal also at a very early age. Interested children ages 7 and up are more than welcome to attend.

You will learn how to find treasures and missing objects. Bring your cases and we will use them as sample working cases. You will find yourself wowed by what you can do with your newly learned dowsing in class and on future projects.
Right on the Skidmore Campus you will find an amazing array of wild, edible and medicinal plants. Let’s explore, dowse and communicate with the myriad of plant friends and entities that surround us. Remember, anywhere that humans lived before there were grocery stores, wild plant food and medicines are there! You just have to learn where to look.

We will investigate, identify and communicate with our plant friends, asking their permission, and gather those who ‘volunteer’ to join us on our healing journey.

If possible, BRING SCISSORS and a SMALL JAR so you can take home your own ESSENCE REMEDY that we will prepare right in the field, depending on what we find on our wild weed walk!

GLIMPSES OF BEYOND
What the Near-Death Experience Tells Us about Life and Death, Heaven and Hell AND Dowsing in Action – P.M.H. Atwater, L.H.D.

The book *Dying to Know You: Proof of God in the Near-Death Experience* is the people’s book. It embraces the collective, the sum of the many. Nearly four decades of listening, carefully noting what nearly 4,000 child and adult experiencers of near-death states shared – what they saw, heard, felt, and suddenly, absolutely knew – fills each page of the book and each moment of this presentation with Dr. P.M.H. Atwater.

Forty drawings from near-death and near-death-like experiencers in six countries fill a Powerpoint presentation that gets right to the core, the very heart of the world’s longing for truth. The subject is God/Allah/Deity, and the stage is that Sourceplace of all that is love.

Each illustration in this program represents that experiencer’s feeling, sense, and memory of what they encountered at the edge of death and beyond. Some are artists. Most are not. These depictions, each and every one of them, give form to the ‘heart’ of what shifted that individual away from ordinary realities and concerns, to the presence of soul – and the deep, full, all-consuming realness of a Power most refer to as Creator, Source, or God/Allah/Deity. Once so touched, each child, teen, adult – remains ever “different” afterward. . . the majority, lifelong. Contributors are from the United States, Scotland, Belgium, Netherlands, Germany, and Canada. There will be time for questions and an exploration of otherworldly realities.

In the afternoon, we will explore the latest findings in near-death research, deeper issues, and the broader topic of transformations of consciousness. This can be a personally transformative experience for you and yours.
THE SONICA SOUND PLAYSHOP: Dowsing with the Voice!
Diana Kelly Domingo and Trent Millet

Experience the Acoustic Body and Sound Technologies with Voice, Rhythm, Digital and Analog instrumentation and the Science of Sound & Frequency to Move Energy, Optimize our Bodies and Transform our Lives! Voice, Breath and Listening are natural dowsing methods!

In this play day of sharing with Diana and Trent: We will explore the Body as Sound! Sound creates the mold for everything we are from molecule to organ. We are a symphony of frequencies and are constantly affected by each sound and the voice of all things. You’ll be playing with instruments and devices that help you see your Voice and how sound and tones create “Cymatic Patterns” – form, structure, and patterns in water, light and solids. Trent will bring his “Opti-Phonic” water computer that converts sound into light patterns. Learn how to use, feel, relate to and move energy with Your own voice and sounds and how to connect more deeply with the internal & external sound currents. And, we will explore how sound affects you, restores you, excites you, and soothes you!

Through numerous modalities we will all experiment and see how sound affects thoughts and emotions and offers us a gateway to shape our consciousness.

Playing with Diana, you are offered enhancement of connection with your own voice, inner and vocalized, its power and natural attributes. She helps to activate “Sonic Awareness” by inspiring and guiding others to connect with and channel their inner symphony of frequency, light and sound vibration through vocal toning, chanting, sacred instruments, soul tuning, and other ancient and modern methods.

Trent’s “Opti-Phonic” Water computers are unique and we’ll play with devices that respond to intent, energy, thought or physical influence, shaping and changing patterns created as light dances with water. He holds certificates in “Bio-Harmonics” and “Harmonics of Healing” and has spent 30 years exploring and studying light, sound and water.
