SUNDAY MORNING PRESENTATIONS

Robert Callan - Robert Callan is a certified Diamond Dowser and president of Dowsing Design, LLC. Since founding the company in 2015, Robert has utilized dowsing to identify and cure disruptive earth energies in many homes and business offices in the twin cities of Minneapolis and Saint Paul, Minnesota and throughout the country. Through environmental dowsing and space clearing Robert has helped establish higher energy frequency environments promoting improved health, harmony and prosperity in people's lives. Robert also serves as the ASD, Midwest Regional Coordinator.

DOWSING TO RAISE THE ENERGY FREQUENCY OF YOUR HOME AND WORK SPACE - Describe and demonstrate how environmental dowsing identifies earth energy disturbances in homes and offices and applies cures to eliminate them. These earth energy disturbances lower the energy frequency in our living environment and impact our own personal energy, health and well-being. Environmental dowsing can identify Positive and Negative Vortexes in our living areas. The application of "cures" can block or convert Negative Vortexes into Positive Vortexes. Also, dowsing identifies Geopathic Stress Lines, Interference Lines caused by cell phone towers and electromagnetic wave energy, along with Negative Hartman and Curry Lines caused by interactions with electric power running through the property. The adjustment and curing of these earth energy disturbances has a significant positive impact on a person's physical, mental and emotional health and well-being, and also raises the energy frequency in the individuals living and work space.

Through all the years of learning dowsing I have become a Master Dowser (According to my dowsing). I use dowsing in most of my health/wellness work, dowsing detail information in ways that most people are not aware of. I have also owned a flower shop for over 30 years and use dowsing in my business daily.

THE REALITY OF BEING HEALTHY – Imbalances in the body are caused by negative emotions that block the energy in the body that cause the organs to weaken and be out of balance. We will cover finding the percentages in your body, negative or excess of the elements, minerals, vitamins, that the body needs to have to function. The range that the body needs to be in for it to heal itself. How to bring the body back in alignment, using nutritional food, supplements, pendulums infused with elements, minerals, and vitamins. Learn of the importance of the meridians and the organs that they lead to. Your health is your wealth. This work can also be done distantly. Do you know the real reason people get sick as they get older? Ask me! There will be handouts of class information and dowsing charts.

CLEARING THE CHANNEL - If we're not clear, how can our dowsing be? This hands-on session, incorporating device and deviceless dowsing, presents a method for getting clear in self and in life. You will learn tried-and-true methods, presented in my book, *CLARITY NOW*, for getting clear: clearing out the static that interferes with ourselves, our dowsing, and our lives. You will learn how to root out hidden intentions that short-circuit your expressed intentions. You will leave the session with concrete tools for "internal housecleaning" so to speak--tools that can be used again and again over time to maintain clarity, with benefit to dowsing applications as well as personal well-being and navigating life path/direction.

MAP DOWSING IN THE DIGITAL AGE - Since the advent of Google Earth, map dowsing has taken a new upturn in finding and tracking Earth energies with startling accuracy. Energies such as leys, geopathic zones, geospirals and indeed vortexes can be comfortably mapped at home on a laptop then physically checked later. All energies have areas of influence and even these can be read and mapped. Avoiding natural "bias" and performing "blind" readings for energies in your home town and anywhere in the world. Special elements to watch for when tracking long leys, keeping records and coordinates.

DOWSING AND FENG SHUI: TOOLS FOR MANIFESTATION – What do you want to enhance or bring energy to in your life – a relationship, business success, financial ease or something else? Often, we are manifesting in a default pattern instead of engaging deliberately with the Law of Attraction. Feng Shui and Dowsing provide tools to help. The class will include an introduction to Feng Shui principles and how you can utilize dowsing to achieve desired results. In this hands on class, you are invited to bring pictures or sketches of your front door, bedroom or other areas and leave with solutions to problem areas. Handouts will provide you with the tools to continue the exploration at home. No previous dowsing or Feng Shui experience required.

SPACE: THE FINAL FRONTIER - The Starship Enterprise took us to the farthest corners of the universe. But is outer space the final frontier? Or is it that which is immediately around and within us.

Ultimate reality, a place few have explored, is all around us. It is a place of alternative realities, Planes of Existence and other dimensions. The aliens Captain Kirk encountered are all around us. Space exerts a tremendous influence upon us. It is made up of our ancestral totems, Jungian archetypes and powerful imprints that manipulate our unconscious mind. It contains Mother Earth's essences and energies. Space affects our well-being and health and connects us to each other.

The goal of this thought provoking workshop is to educate you about the space around you and provide an overview of the frontier you live in. Join us for the Exploration and bring your L-rods.
