### FRIDAY MORNING PRESENTATIONS

**Ed Annick** - Astrologer for 50+years, Dowser for 30+years, BEE, MS in Counseling, 40+years industrial Management up through VP of Manufacturing and Engineering. Twenty years as a therapist with boys 4-16, alcohol and drug rehab, methadone clinic and general counseling. Over 7 years utilizing EEFT (ENHANCED EFT).

**9:00AM STARTLING RESULTS THRU ENHANCED EFT** – Most EFT practitioners “open the bottle,” so to speak, but don’t know what to do with “worms” that are now exposed. This leaves the client in worse shape than if nothing was attempted! Additional steps that have been discovered which afford results of 90+% on emotional problems and 60+% pm related physical issues. These additions reduce/eliminate the “blocks” and include prayer.

**Leroy Bull** - Leroy Bull is a well-known and well-respected International Master Dowser, author of the quintessential book on Map Dowsing, prior president of the American Society of Dowsers (ASD), current Chair of the Water for Humanity Committee and International Coordinator of ASD, and was a long-term ASD trustee. He has been dowsing for over sixty years. Leroy has a Bachelor of Science degree in Animal Husbandry and a Master of Science degree in Food Technology. He currently resides in Stamford, Connecticut USA. Leroy has successfully dowsed at least thirty-one hundred water wells. His additional dowsing jobs include four-

thousand plus earth energies projects, thousands of map dowsings and teachings, vein diversions, mineral dowsing, lost people/pets/items and assorted specialty requests. Leroy has been channeling for over twenty-five years. Leroy has been featured in the *New York Times* newspaper and in *Smithsonian Magazine*, as well as in local newspapers.

**10:45AM MAP DOWSING** - This 2017 Map Dowsing presentation is for accomplished dowsers, who wish to expand their abilities to include a particular form of information dowsing called Map Dowsing. I have dowsed for water and items around the world and this has led to much success, much learning and contacts with people I would not ordinarily have met. This brings me great joy, and I am looking forward to sharing this with you. I will have new unmarked maps this year. This workshop will be a challenge and thus not amenable to brand new dowsers. As we practice dowsing, in my wife’s opinion unlike the AMA folks, we just learn more and more. Please show up with your favorite tools, I have no bias against any of them.

**John Butler** - John Butler is a Lifetime member of ASD. He is able to perceive the energies outside and inside people, and has been described as "one of the best clairvoyants on the East Coast". John has traveled the nation to present his discoveries – including lecturing at the New England School of Acupuncture and the Emperor's College of Oriental Medicine in Los Angeles. His unique combination of dowsing and clairvoyant work has led to many valuable discoveries and attracted clients from all over North America.

**9:00AM A CLAIRVOYANT'S GUIDE TO PHYSICAL AND FINANCIAL HEALTH** - Dowsing charts and protocols will be shown on determining the causes, blocks, and solutions to all kinds of physical health problems. The 4 biggest little known causes to many different health problems will be discussed. The 3 primary causes to prostate cancer will be covered. John will discuss what he has seen clairvoyantly on every client who has had breast cancer. The 3 most common blocks, and solutions to financial prosperity will be covered. A large variety of other topics will also be discussed. How to be a healthy and successful person is the goal of the talk.

**Glenn Cratty** - Glenn has practiced psychotherapy for 40 years as a clinical social worker. He has been an active dowser for 20 years and explored dowsing applications in psychotherapy. As an Energy Psychology practitioner he has developed specific pendulums and protocols for the treatment of many problems encountered with psychotherapy clients and treated himself for his own cancers.

**10:45AM DOWSING INCEPTION POINTS – TAKING IT FURTHER** - At the 2016 Convention in Saratoga Springs the president of ASD gave a workshop in which he mentioned the ancestral inception point cause of some problems or issues we might face. We have taken the inception point concept further in the context of psychotherapy. We have found that there are not only generational inception points but also past life inception points, current life inception points and problem specific inception points. This workshop will teach how to dowse to get the information necessary to then apply the protocols and invocation for scrambling the information of each type of inception point cause.

**Diana Domingo** and Trent Millet - Diana Domingo holds a Master's Degree in Psychology, is a Singer/Songwriter and a practitioner of "Sonic Awareness". She has been expressing her passion by inspiring and guiding others to connect with and channel their inner symphony of frequency, light and sound vibration through vocal toning, chanting, sacred instruments, soul tuning, and other ancient and modern methods.

**Aime Trent Millet** holds certificates in bio-harmonics and harmonics of healings and has spent 30 years exploring and studying light, sound and water. He is currently the President of the Mohawk-Hudson Chapter of ASD and offers Saratoga Water Tours, Sound and Dowsing workshops.

**10:45AM INTENTIONAL HEALING DEVICES** - In this "Navigating the Internal and External Sound Currents!" presentation, we will discuss the world of Sound, Frequency and Vibration and explore the role of our Voice in shaping and manifesting our

reality, helping us to clear obstacles and ultimately heal our body, mind and spirit. Everything in our universe and in our bodies has a voice and therefore we are in constant dialogue with ourselves and existence around us. The Body speaks to us. The world speaks to us! Voice, Breath and Listening are natural dowsing methods we are all born with. Through vocal toning and scanning / mapping, we can learn to create more clarity, space and harmony in our daily lives...Through looking at various modalities, including the Science of Sound "Cymatics" and "Dowsing" with our voices, we will see how sound creates patterns and impressions, affects thoughts and emotions and offers us a gateway to higher consciousness.

**David Franklin Farkas** - David Franklin Farkas. MS Ed, is a professional house healer and ghost rescuer. He is a thought leader, independent (rogue) scholar and master practitioner in the area of remote clearing and healing of land, buildings, people, businesses and situations. He is a Technician of the Sacred, a literal translation of the word shaman. He has over 35 years of experience, the last ten years focused full time on remote healing as service for businesses and individuals especially problematic real estate.

**10:45AM PAPER DOWSING METHOD FOR CLEARING BUILDINGS AND PEOPLE** - I see dowsing as a psychic skill for non-psychics. What if you can expand your dowsing to capture more data more quickly? Get numbers instead of just yes or no. Get a feeling of the energy, even if you can't feel it?

In my remote healing work, I start with an intake phone call with the client. It used to be a mini reading. Now I can capture/download lots of data about a person or place, on paper, in a few minutes. And, I don't have to go into an altered state to do it. Come learn this unique system and apply it to your work.

**David Kane** and Riki Kretschmar - I have a very mechanical, technical, problem solving background of nearly 50 years and Riki has an extensive spiritual and dowsing background of over 50 years. We never set out to study gold but it keeps appearing in our research. Riki was dyslexic as a child and developed other coping systems without realizing at the time. She was dowsing and using mind games since forever. My blessing is to have access to these wonderful tools as there were no books on our path of Ormus research.

**9:00AM GOLD** - Gold is a strange material that we have too many preconceived notions about. We perceive it as money instead of paying attention to what it is, false value is an interesting diversion process. One form of gold is essential to all life as it either is or is the facilitator of consciousness itself. We present some thought provoking material, physically, culturally and scientifically to focus on this aspect. Catching the thread of this is interesting as you already have many experiences that will be enhanced or correlated to this information. Gold is physical in several forms, like water, ice and steam. It is also spiritual and likely the medium of energy data transfer as seen in the Dowsing experience. Water is the biological and earth computer, gold is the electricity that allows it to run.

**Marty Lucas** - Marty Lucas is well known throughout the radionics community as a cutting edge practitioner and instructor. He teaches radionics classes throughout the country; including the ASD, the USPA and S.P.A.M. Conferences. Marty teaches his students practical how-to information as well as complex in-depth subjects. His classes are informative as well as entertaining. For more information about Marty's work, go to [EveryAdvantage.net](http://EveryAdvantage.net).

**10:45AM SACRED GEOMETRY IN OUR ENERGY FIELD** - Our energy field is not just a blob of light. It is a compilation of a myriad of shapes. When the energy field changes, it is because the shapes that make up that field have changed. If an organism has an infection it is because the shape of the infectious agent is able to attach to the energy field of the host. When we look at issues based upon their shape we are able to work faster and more efficiently and achieve results permanent results. This presentation will change the way you look at health and wellness issues!

**Kathleen Miller** - Kathleen Miller, PhD, has presented at regional and national conferences on mind-body health and healing. She holds a Master's degree in Holistic Studies and Healing Arts, and a PhD in Spirituality. She has worked in health care settings for the past 30 years, and is certified in Yoga, Self-Guided

Healing, Bach Flower Essence Practitioner, Level II, Mind Body Stress Reduction, and is currently completing certification in Clinical Aromatherapy. She thoroughly appreciates the ASD community, and always enjoys

reconnecting with everyone at the annual ASD conferences.

**9:00AM CENTERING TOOLKIT FOR ENHANCED RECEPTIVITY** - Centering practices can enhance our receptivity and clarity in dowsing. This workshop will cover various centering practices, combining lecture material with experiential exercises. Specific modalities include: aromatherapy, breath work, mini-relaxations, heart-brain coherence, imagery, chair yoga, mudras (hand yoga) and sound. Come-relax, explore, and center in a supportive environment!!

**Ned Wolf** - Ned Wolf resides in Flagstaff, AZ. He is a practicing natural healer, specializing in vibrational remedies, energy healing, and conflict resolution and counselling. His career as a natural healer, counselor and family mediator spans the past three decades. He has recently authored *Nandia's Copper*, a visionary fiction tale of healing that uses dowsing and other modalities to resolve a city's viral epidemic. Ned also teaches classes in dowsing, counselling and natural healing.

**9:00AM FUN & GAMES while DOWSING FOR ENERGY and VITALITY** - This is an exploration of effective dowsing protocols that support health and healing. We will discuss various dynamics of healing, including that each of us resides in a body that has all the necessary resources to correct any imbalance. Therefore, dowsing can be especially useful to determine how we are blocking access to these inner resources.

Ned will present various tools that are used in these protocols, including the use of radionics equipment. He will share Hanna Kroeger's dowsing methods for identifying the physical and spiritual causes of imbalance from toxins to genetics; from suppressed emotions to entities. Additionally there will be dowsing exercises to determine the levels of vitality for each organ and system of the body. In this manner, participants can access a system for recovering exuberant vitality that has empowered thousands to recover from limitation.

## FRIDAY AFTERNOON PRESENTATIONS

**Dan Arseneau** - Dan earned psychology degrees from McGill University and the University of New Haven, where he discovered that overall, academics have a very limited and narrow understanding of human behavior. He was a teacher in higher education, an army combat veteran, and a human resources executive in healthcare. In addition to his dowsing practice, he is a Marconics Level III Quantum Recalibration Practitioner, an Emotion Code Practitioner and studies Human Design. He has presented at the Living Waters Dowsing Chapter.

**1:45PM CLEARING LAND, HOMES AND GARDENS** - Land holds and carries energetic memory, some of it natural and of it some man made. A portion of this energy isn't beneficial to humans and can cause or contribute to many chronic health conditions. This energy can be physically and energetically toxic.

Dan will present a dowsing protocol he uses to clear, balance and neutralize homes, land and gardens of non-beneficial energy, entities, thought forms, geopathic energy lines, EMF, portals, trapped emotions, energy cords and more. This is a "how to" class that you can use with your own dowsing skills to clear and transform your property. He will also show you some the tools and devices he uses in clearing; many are simple homemade DIY.

He will also have information about working with and co-creating with your land Elementals to transform and raise the vibration your landscape, gardens and property. Why not ask for advice from your own experts, your own Elementals! The fun begins what you ask them what they want! While based in dowsing, this information also touches on aspects of geomancy, Feng shui and the shamanistic traditions. However we label them, it's all the same energy and vibration.

**Grant and Ray Cahill** - Since he was a little boy, Grant has been connecting with the energies of trees, plants, and minerals. They became evermore important to him as he went through the UN-grounded times of his teenage years. His abilities to connect and use these energies to ground are what helped him the most. Now he would like to help others to connect with nature and gain these abilities

for themselves. When Ray was five he connected with a magical creature who was his start on his journey towards enlightenment. His magical creature taught him spirit was all around surrounding us and how to better connect to nature and the mineral kingdom. Ray would like to teach you how to connect to the minerals in a much deeper way.

**1:45PM CONNECTING WITH YOUR MINERALS – GUIDED MEDITATION WITH CRYSTAL SPIRITS** - Every mineral we work with to achieve our goals or feel the energy of we make a connection too. During this class Ray Cahill will personally teach you to strengthen and deepen this ability to connect to all of the minerals in the mineral kingdom. Through strengthening this connection you will be able to more intuitively pick your minerals, feel their vibrations and energy and move forward towards enlightenment. As you strengthen your abilities to connect with minerals and crystals this will be a powerful ally as you continue to excel forward. I'm excited to share the amazing world of minerals and crystals with you and I hope you can experience it with me.

Join Grant Cahill as he leads a guided meditation using the healing energy and channeled words of some of his favorite minerals and crystals gathered from around the world. During this guided meditation you will be connected to many different and powerful Minerals and crystals as their energies are drawn into the room. The intent of this meditation will be decided by the minerals and by what will be most healing for the group. This meditation can range from healing ancestral karma to feeling are own sacred oneness or inherent divinity. During this class you will gain abilities and connections which you will be able to develop and use throughout your healing process. Treat yourself to a unique opportunity to connect with some amazingly powerful minerals with vibrations unlike any others.

**1:45PM WHAT DO ALIENS WANT?** – Some Aliens want to help us. Some want to observe us. Some want to use us for their own purposes and think that’s OK! We need to be able to tell the difference between different types of Beings, and dowsing is the way to do it. (And by the way, what you learn in this class can be applied to Human and Angel interactions as well!) Step into your power and create psychic protection to enhance your health and prosperity so you can help yourself, your community, the planet and beyond. Susan will share her Dowsing and Triage Protocols as well as techniques and tips from her years of sagely interacting with Other-dimensional Beings. Essential handouts will be provided.

**3:30PM DOWSING FOR SOLUTIONS** - Got a problem? Got a goal? Presented here is a wholistic system of goal achievement that can be adapted immediately with dowsing to help you find solutions that work for you. The best dowsing incorporates both left and right brain as it taps into the universal sea of consciousness for information. It uses knowledge about the topic, experience and analytical skills to know how to design dowsing charts, what questions to ask, and what to dowse out. And while it utilizes our conscious mind, it connects to our subconscious mind and beyond to something MORE that is also us, and finally further beyond to something MORE that goes beyond our individual self. Dowsing is utilized to set clear intention, vision, inspiration, increased allowance, eliminate blocks, identify resources, options, right questions, and an action plan.

We will also take a look and discuss the spiritual and meditative messages offered by the living consciousness of water. There are frequencies in everything and we'll speak of the interaction of relationship and the information shared with water. It's more than knowing how to dowse the location of water but the empowering and personality aspects of the liquid magic we call water!

**3:30PM SENSING ENERGY: THE UNSEEN HELPER THAT CAN IMPROVE YOUR DOWSING EXPERIENCE** - Each of us has a form of energy inside of us that I call "Sensing Energy," because it senses the vibrations of our environment—for example, the energetic vibrations of other people, buildings, nature, etc. Many dowsers complain that they "pick up" noxious energies or bad vibrations from their environment, but you can learn how to respond effectively to this challenge. After explaining how your Sensing Energy operates, I will explain how you can become more aware of what your Sensing Energy is picking up, so you can consciously focus on what is "good" in your environment, and limit picking up what is "bad." Participants will practice how to be aware of and use their own Sensing Energy, and how to pick up good vibrations from your environment, so you can benefit more fully from the good energy all around you.

**1:45PM DOWSING THE HIDDEN UNIVERSE** - A typical person experiences a relatively small portion of the world while most dowsers experience much more. It is this expanded awareness that allows for a richer, fuller life with a higher understanding of the nature of the universe. Validation and acceptance of dowsing opens possibilities in using higher awareness to directly experience the unseen world. All people, especially dowsers, have the potential to utilize all twelve natural senses. Gary will share dowsing techniques to open awareness and release old filters to enhance our true intuitive selves. Believing is Seeing!

Her soon to be published book, *Money, a Healing Journey*, invites readers to transform their relationship with money so that it can become an agent for divine love in the market place.

**3:30PM MANIFEST WITH GREATER EASE** - The keys to manifesting with ease require a clear desire, belief and expectancy. But, how do we know how clear our desire is? Is what we think we want what we really want or what we think we should want? Is it really in alignment with our heart's desires? Are there conflicting beliefs that cancel each other out? How open are we to receiving? This workshop will explore all of these issues and invite the use of a dowsing protocol to determine the percentage of alignment with your ability to manifest with ease.
