The Foundation Course in Dowsing
an ancient technique to find your truth

***School Instructors: Joan Reid, Tic Gaudreau, Richard Roy, Brad Young,
Dave Darrow and Sandi Isgro***

“Dowsing changed my life and the lives of my loved ones.”

Your instructors will share their knowledge of the art and science of dowsing so that you can fully participate in this ancient means of knowing. Many of us dowse to find lost objects, keys, pets, and other personal items. Some of us are also called upon to dowse for water, oil, and minerals. We use dowsing to get answers to “yes and no” questions, to help us navigate our future and to make decisions.

The goal of this class is for you to learn the “Foundation” of dowsing and give you the hands on practice you need so that dowsing becomes a part of you.

Course materials will be included. Your kit will include: pendulum, Y-Rod, L-Rod, Bobber, and the Foundation Course Manual (which contains a wealth of information about dowsing).

You will learn:

1. How to use the four basic dowsing tools included in your kit
2. To properly prepare yourself to dowse
3. How to ask valid questions to receive answers

You will be coached by seasoned dowsers in small groups and given individualized attention. We will answer your questions, share a few dowsing stories, laughs, and experiences.

Finally, at the end of a fun and fast paced learning day when the course is completed, you will have the skills, knowledge, basic tools, and confidence you will need to commence your dowsing journey and further studies.

At the conclusion of the course you will receive a certificate as a reminder of your achievements. As an additional benefit of being a member of ASD, you will have access to monthly meeting calls where you can ask questions and learn from other dowsers about a wide variety of subjects.

*Note: Course materials included in fee.

LOCATING & CLEARING THE MENTAL/EMOTIONAL DRIVERS OF DISEASE

Roxanne Louise

Mental and emotional stress plays a part of every health challenge. Some stress such as the death of a loved one is so devastating that there is a clear connection. But usually, it is a slow, steady, cumulative effect of unresolved issues that wear away the body's resources so that it can no longer muster the strength to protect itself. Some issues or vulnerabilities are inherited; some perhaps are carried over from past lives. A great deal is unconscious. Dowsing excels in locating & clearing the stuck energies, the negative beliefs or judgements, the unhealed trauma (both yours and that of your ancestors). We will look at the shocks and internal conflicts that trigger many specific health conditions, the metaphysical meanings of disease, secondary gain, and multiple other ways to dowse out and resolve the major stressors that once complete free up energy for the body to move back to health.

Wednesday Morning Workshops

9:00am– 12:00pm

KEEPING SIMPLICITY IN THE COMPLICATED WORLD

David Kane

The purpose of this workshop is to enlighten us in the understanding of the balance between our 3D world and what I call our 5D world or spiritual world. Dowsing is one way to access one from the other. We start with explanations of what these things are and our aim is to have an enlightening interactive discussion. You already know a lot about these things and we hope to present some new perspectives.

Technologies on the edge of 5D

Prior knowledge or interest in: Ormus materials, technological anomalies like Nitinol, Joe cells, Browns Gas, Magnetic fields in fluids, Iridescence and metallic glasses, alternate energies and God and Jesus, Buddah etc.

The 3D side of the world

Human concepts and how to identify them, The dilemma of words, How money is created, Economic System, Legal system function, Conspiracy theories, Who gains and why, Where do we place our energies for the most benevolent outcome

Aspects of the discussion:

Why Dowsing is so important as the only verification tool for many. All questions are welcome.

INTRODUCTION TO RADIONICS

Marty Lucas

The student will be introduced to the basic theory and practice of radionics. There will be a limited number of instruments available for hands on exercises. At the conclusion of the workshop, the student will understand the relationship between dowsing and radionics and have a working knowledge of how to use basic radionic instruments for subtle energy work.

Wednesday Afternoon Workshops

1:00pm – 4:30pm

UNIVERSAL PENDULUM WORKSHOP

Alicja Aratyn

Universal Pendulum, developed by Andre deBelizal and Leo Chaumery in 1930's in Egypt and finalized in Paris, is considered the most advanced dowsing tool on the world. UP is based on observation of Earth rotation around the Sun and – consequently – light beaming on the surface of Earth. Full spectrum of light contains two sub-spectrums: visible and invisible. Universal Pendulum is the only tool, which allow you to measure not only 7 colors from Visible Spectrum but also 17 frequencies from Invisible Spectrum of Light!

By using Universal Pendulum we can:

- Remove detrimental frequencies from the body on much deeper level then with regular pendulum or hands-on modalities

- Heal by supplying body with specific vibrations of spectrum of light directed with laser-like precision to the inner organs or parts of the body
- Check and correct energy level of homes, objects and people
- Immediately clear and enhance the energy flow in any place
- Attract Abundance, Prosperity or whatever you need in your life and more...

During this day we will perform a full treatment with UP, and due of access to those 17 vibrations we can also understand the source of condition. There is no tool that gives you such in-depth opportunity.
