

**Thursday Full Day Workshop**  
**9:00am – 4:30pm**

**STEALTH PATHOGEN DANGERS: FIRE UP YOUR TOOLBOX!**

**Aaron Singleton**

Stealth pathogens, mutants per se, are among us, and in our mouths, gut, brain and throughout our bodies. Lyme Disease is just one of dozens of stealth pathogens. Discover which pathogens, parasites and helminths you need to be most concerned about, due to their unique abilities to mutate and avoid detection and treatment by most medical means. Stealth pathogens are some of the Root Causes of lupus, multiple sclerosis, Parkinson's disease, Alzheimer's disease, dementia, diverticulitis, crohn's disease, inflammatory bowel disease, autism, obsessive-compulsive disorder, schizophrenia, rheumatoid arthritis, cancer, eczema, psoriasis, chronic fatigue, brain fog, auto-immune diseases, rage issues, and much more. Determine which stealth pathogens are in YOUR body, and learn dowsing protocols for detection and treatment options for yourself and others. Sue and Aaron's medical intuitive insights and healing strategies provide you with critical information that may save your life and restore your health.

**Thursday Morning Workshops**  
**9:00am– 12:00pm**

**FOUNDATIONS: DOWSING FOR WELLNESS**

**Joan Reid and Tick Gaudreau**

Each of us is an incredible creature of energy systems, all put together into one LARGE wonderful system. I like to think that it is part of why we are here at this particular time, in this particular place to help keep a balance in the larger system ... the all that is.

Everything that has life pulsates with energy and is alive with information. The field around the body is also a perceptual system so we are in constant communication with everything around us sending and receiving information and energy through our fields. It carries the information about our physical, emotional, and psychic states. We can use dowsing to read these energy fields, and in so doing, learn about ourselves.

As we take responsibility for our health, and balance our Physical, Mental, Spiritual and Emotional selves, we help others, as well as ourselves.

The following topics will be covered and practiced as time permits:

Basics of dowsing tools: a refresher

Basics of the Human Energy Field (HEF): Aura, Chakras, etc.

Scanning the Human Energy Field

Breakout sessions used for practicing the learned techniques

(continued)

Physical manifestations of problems with HEF  
How problems with Human Energy Field can affect wellness  
The law and HEF and wellness, regular cleansing & clearing  
Charts and lists for dowsing & Scanning the Human Energy Field  
Map dowsing the Human Energy Field  
Deviceless dowsing and the HEF  
Wellness and how dowsing can help enhance other modalities such as: Reiki, Therapeutic Touch, reflexology, using essential oils, etc.

## **LIGHT ATTUNEMENTS FOR CLEARING AND HEALING**

**Brian Besco**

Group Activations and Attunements through high level consciousness work and guided meditation. We will learn several processes as we do the clearing and connecting work required for these high-level activations. Through the process, we will be taken into the Quantum Void space, where all the work takes place. This includes connecting and clearing and anchoring in all Soul Aspects throughout our entire Being.

We begin the Activation processes with the Sacred Heart and then moving to the Quantum Mind, before bringing in the field of Universal Peace.

The Sacred Heart is seen as the tri-fold golden-flamed heart which Jesus and Mary are depicted with. The information, knowledge, and attunements are not based in any Religion or belief systems, though can be found in many of those structures.

The Quantum Mind is an electromagnetic balancing of the brain hemispheres, through consciousness work, and connecting that to the Quantum Mind of the Higher Soul Self. It is from this space, that the field of Universal Peace can be brought in and anchored into the physical DNA. The how, why, and what we do with it are discussed, and then finalized.

## **WALKING ON THE EARTH**

**Adhi Two Owls**

In this half day workshop, you will learn the traditional methods I learned early on in my shaman training that helped me to be present with the earth and all her creatures. As a shaman and dowser I find these skills are enhanced by each other. Shamanism opens you up to the non-ordinary world, the world of the unseen and dowsing gives you the tools to measure and communicate with these unseen energies. Bring dowsing rods and a pendulum. We will be outside if the weather is good... wear appropriate clothing.

# **LABYRINTH BUILDING WORKSHOP**

**Sandi Isgro**

This course is designed to give you all the information and the hands on experience you need to build a 7-circuit labyrinth in your own back yard. Create this sacred meditative healing space for yourself or others. Learn to work with dowsing and earth spirits to site your labyrinth, build it, and maintain it. We will be creating a Labyrinth for the Conference attendees so please be prepared for going outside (proper shoes and clothing for garden work). This ancient symbol is found on every single continent and composed of every material imaginable. Journey through the paths of the labyrinth. Join us as we discover why this symbol has endured thru the centuries - balancing energies, helping to heal bodies/minds, and creating a spiritual connection to the divine.

## **Thursday Afternoon Workshops**

**1:30pm – 4:30pm**

### **FOUNDATIONS: WATER**

**Richard Roy**

Isn't water everywhere: What do I need a Dowser for? In the Northeast, this statement is somewhat true. People have been poking holes in the earth randomly for years and coming-up with good wells. Some of their success is luck, some because of abundant water, and some the drillers kept drilling until they came up with a satisfactory source. Some are successful because they use a Dowser to find the well. In other areas of the country that have less plentiful ground water or where there are contaminants in the water, Dowsers earn their keep. In this course you will learn the basics of dowsing for water and other techniques associated with water dowsing.

Breakout sessions used for practicing the learned techniques

Basics of locating water using dowsing tools

Methods to locate water on site

Edge of flow, direction of flow, depth, amount of flow, purity, recovery rate, best place to drill

Diversion of veins

Water retrieval: drilling, digging, points, pumps, artesian, hydro fracking

Laws and good practice regarding water wells

Map dowsing to locate water wells

Why the hole is dry? Blasting, angle of drill, etc.

# **AWAKEN YOUR THIRD EYE**

**Susan Shumsky**

What is your "third eye"? And how can you open it? Through the window of your eyes, you can view the ever-changing landscape of your beautiful, miraculous world. You perceive this magnificent world with your five senses: seeing, hearing, tasting, smelling, and feeling. But there is a sixth sense. With this sixth, higher sense perception, you can open the gateway to subtler realms of existence. You can develop an inner eye and view an invisible world, consisting of multiple dimensions, spiritual planes filled with light, and alternate realities of indescribable wonders. This eye of wisdom, knowledge, illumination, and intuition is aptly named "The Third Eye."

In India this third eye is known as the *ajna chakra*, a subtle energy plexus in the middle of your brain, seated in the pineal gland. Through this portal of higher vision, you can see what is not evident by solely using your physical eyes.

In this workshop, you will explore the third eye in depth. Through using the simple, practical methods taught by Dr. Susan Shumsky, you will learn how to awaken your third eye and develop super-sensory perception by various traditional and non-traditional techniques, both ancient and modern.
